Pinterest	Free	iOS, Web, Android	Curriculum	K-12
Twitter	Free	iOS, Web, Android	Curriculum, Professional Learning	K-12
Teachers Pay Teachers	Varies	iOS, Web, Android	Curriculum	K-12

*** In my humble opinion, the most critical thing you can do to improve both the efficacy of your device, for teaching and learning, is to find a way to break free of wires. Mobile technology is meant to be mobile. Get away from the front of the classroom and realize the potential of a student centered classroom. The best (and least expensive) way to do this is to download AirServer on your Mac or PC. You will thank me. Have an Android device or Chromebook instead of an iPad? AirParrot is what you want to purchase.**
