Individual Student Report (SAMPLE)

Reading GPS

Level 3
Exceeds
Standard (above 850)

Level 2
Meets
Standard (800-850)

Level 1
Does Not Meet
Standard (minimum set at 800)

This fictitious student’s score is 890, which is in performance Level 3 and exceeds the standard for reading. A scale score of 890 indicates this student’s achievement on the day of testing. If this student were to take the same test again, it is likely that his/her reading score could be within the standard error of measurement (SEM) range of 867 to 913 (46 total points).

Distance from 890 in either direction = + or - 23

\[
\frac{23}{890} = \pm 0.0258 = \text{approx. } 2.6\% \text{ SEM}
\]
